Professional Summary

Hello!, my name is Sofía Swidarowicz. I'm a Senior Mobile Software Engineer, focused on iOS operative system, although I've done a little bit of Android, Ruby and Javascript for different kind of projects.
I consider myself adaptable to different environments, hard worker, tenacious and I try to keep an enjoyable environment for all.
My goal is to learn what I can from my fellow colleagues from building great apps and having the best time I can programming.

Work Experience

04/2022

Domestika
  • Senior iOS Engineer
Worked on the videoplayer refactor. Using RxSwift, RxCocoa.
Implemented a pure SwiftUI feature to edit projects (video, photos, text with markdown). Architecture TCA and Redux
Solving bugs and improving release process

10/2017 - 04/2022

eDreams Odigeo, Madrid - Spain
  • iOS Software Engineer
eDreams is an online travel agency (OTA) based in Barcelona, Spain, Italy and Portugal, that offers deals in regular and charter flights, low-cost airlines, hotels, car rental, dynamic packages, holiday packages and travel insurance. We also own other brands on which we develop with a white label approach. These apps have different markets around the world.
eDreams, Opodo, Travellink, GoVoyages
I've worked in post purchase experience, and now in the user engage area. Some of the technical challenges that I faced during my time here:
- Automatize the release process, using Circle-CI, Jenkins, Bitbucket, Fastlane, Slack...right now we're trying to release twice a week and working around an automatic schedule calendar to avoid human interaction
- Deeplinks, One-Links (deferred), Push Notifications, tracking, login, and all user engagement related
- Given the role of Cooperative iOS Lead to guide the maintenance of the project

2016 - 2017

Idealista - Rentalia. Madrid - Spain
  • iOS Senior Developer
I was the main developer for the iOS app in Rentalia.
Rentalia is a short-term rental housing company, available in 7 countries: Spain, Italy, Portugal, Croacia, Germany, Netherlands and France. I've also helped to build the Android application from scratch. Both apps have 4.5 stars in their respective market

2016 - 2016

BBVA Cells, Sngular. Madrid - Spain

Cells was a so-called project in BBVA, which was trying to build a Polymer application for the bank. As a multiple component application, we needed to build small pieces for each mobile environment. We used Cordova as the main processor to act like a bridge for different iOS functionalities. We ended creating iOS native plugins that were connected to the Cordova main project. We used javascript, yeoman, gulp and more tools to automate all of the process.

2015 - 2016

BBVA Pilots, Sngular. Madrid - Spain
 • iOS Developer

Pilots was another great and awesome area of BBVA. I learnt a lot of animations, auto layout and design in this project. Basically we created interesting demos to present them to BBVA's' high rank project managers. We used technologies like Parse as a backend, html embedded in native app, etc.

2014 - 2015

BBVA Compass Mobile, Sngular. Madrid - Spain.
 • iOS Developer - QA Tester

I was in charge to build the QA environment (BDD and UI Smoke) to test BBVA Compass (USA) mobile iOS and Android. I was using Calabash for iOS and Android to communicate with each mobile environment, Cucumber and Gherking to write the BDD test and Ruby for scripting

2012 - 2016

Sngular. Madrid - Spain
 • iOS Developer

I started developing diverse kind of iOS apps. Some of them were internal apps, a little simulator game, an iPad application, diverse little demo games and so on.
KnowSquare, Azzeite Tree, Kids Beathing Asthma, Where is my nose, What Colours are there, Find the Opposites, MAIAP

Education

2013

CICE - Escuela de Nuevas Tecnologías. Madrid, Spain.
 • MSc Mobile Development (MDM)

2012

Grupo Atrium. Madrid, Spain
 • Msc Expert Certificate Java

2011

University Ramon LLull - La Salle, Barcelona, Spain
 • MSc in Multimedia Engineering

Universidad de Oriente. Venezuela.   2009
  • BSc in Informatics

Languages

Spanish   —   Native Speaker
